

This week's Sweeps game Blind Holes, has been scored and winners calculated by flights. The results are now on our website (left hand side of home page).

How Golf Genius Scored this Week's Sweeps

1. Your pops on the selected blind holes will be used to calculate your Blind Holes Net Score
2. Golf Genius determined flights by Handicap Index, kept players with the same Handicap Index in the Same Flight.
3. Golf Genius will calculate Winners by Flight.

The first part of the sweeps results shows the flights along with the winners and their winnings. Second part of the results displays special achievements such as Chip-Ins, Birdies, Break 50 and Break 60. The last section displays more details on calculating the game results in Golf Genius.

If you have any questions or want to learn more about Golf Genius and game calculations, please contact Terri Rooney, Tournament Chair.
